About This Content

Toposim Mexico for FSX: Steam Edition provides LOD12 / 10m Multi-LOD terrain mesh for the whole of Mexico, improving the accuracy of the default terrain mesh and offering a marked improvement to the landscape profile.

VFR flying over Mexico has never been more realistic with lakes, mountains and ground undulations all where they should be.

Please note this pack corrects the default terrain mesh and does not include any textures.

I reeeally recommend this addon, the stock one lacks of accuracy in some regions, I live in Mexico and I only fly in Mexico most of the time so I've noticed a huge change.. Awesome, the amount of detail in the mesh compared with the stock one is mind blowing, is like playing a whole different game.
